

Arte e immagine: natura morta con chiaroscuro e sfondo astratto.

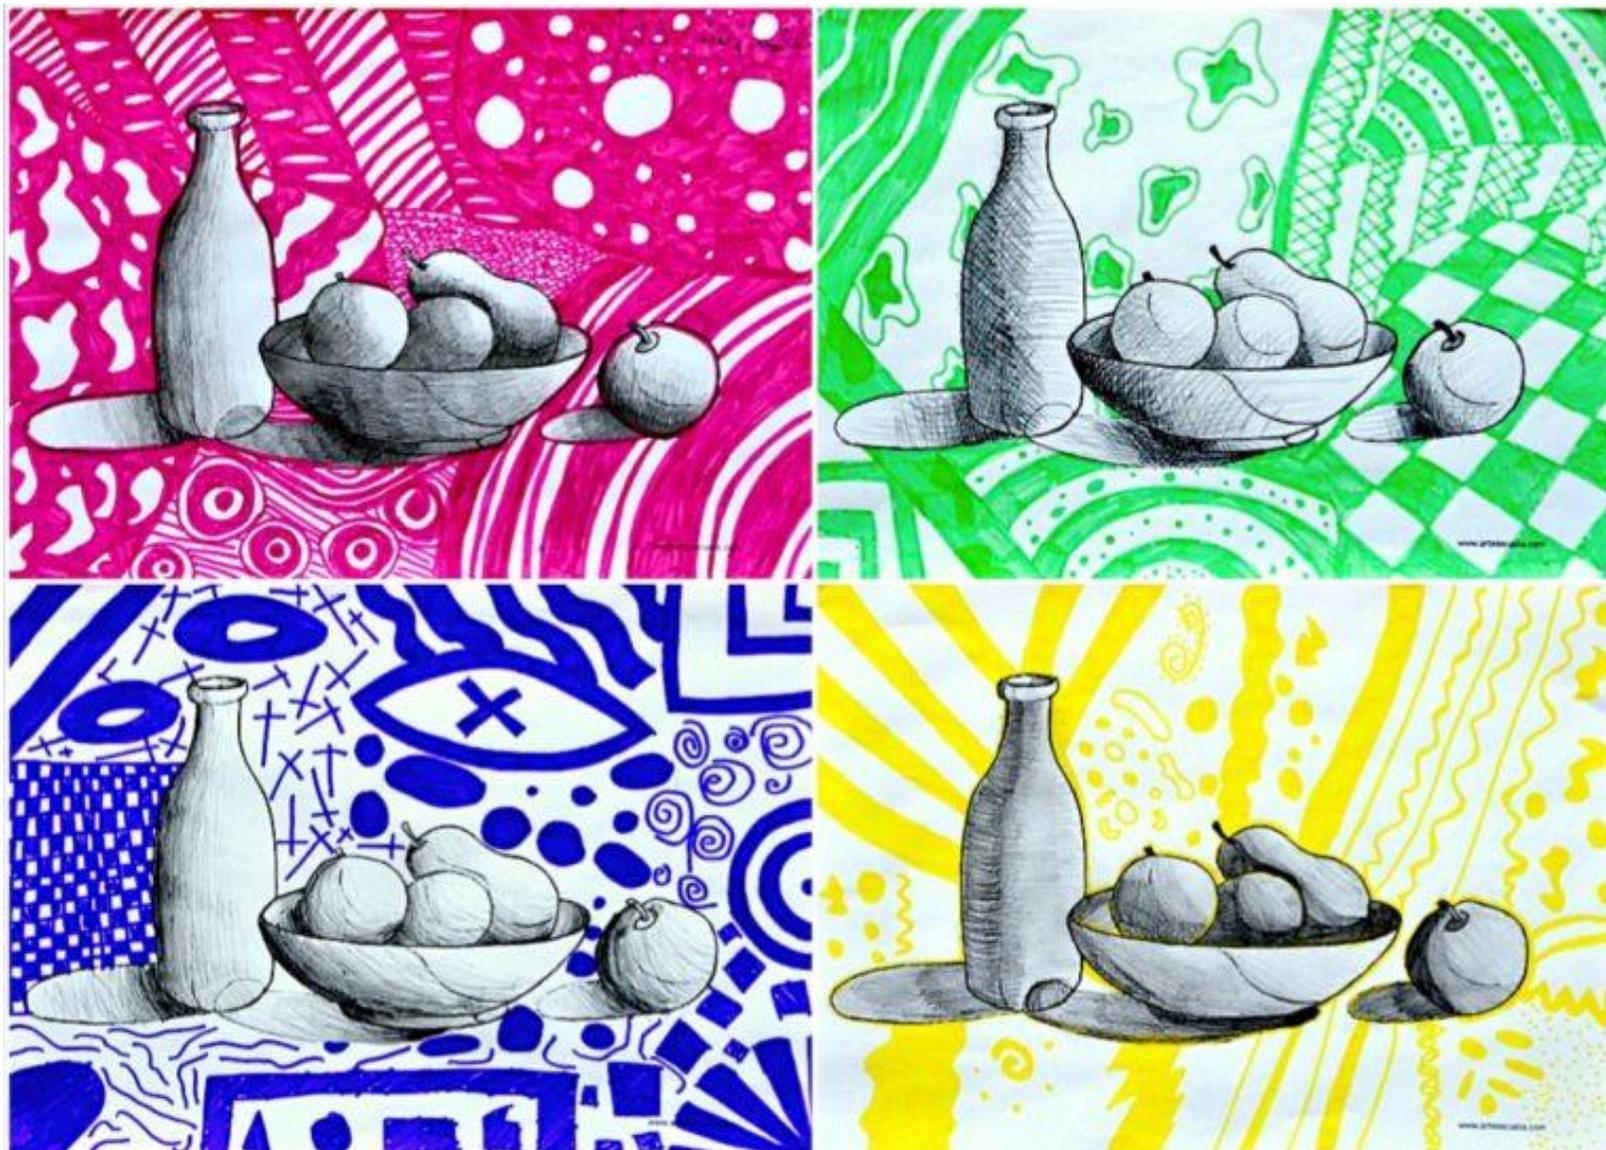

Natura morta su sfondo astratto

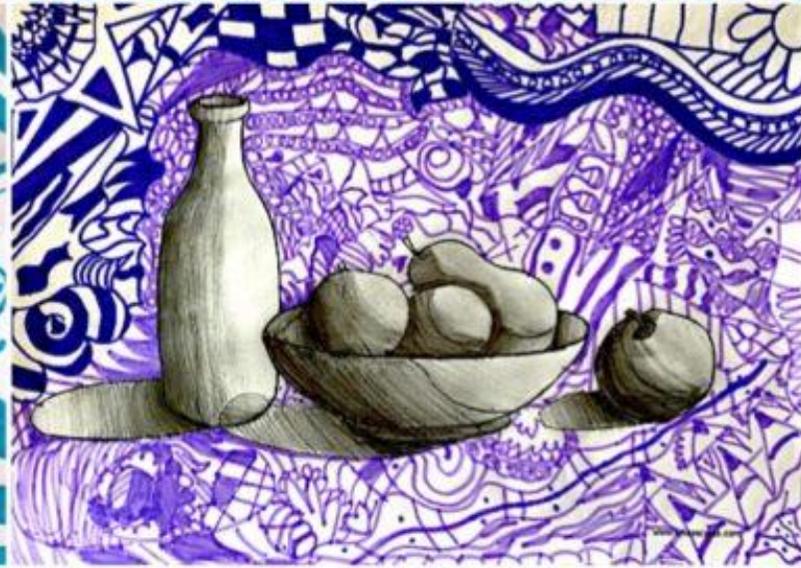

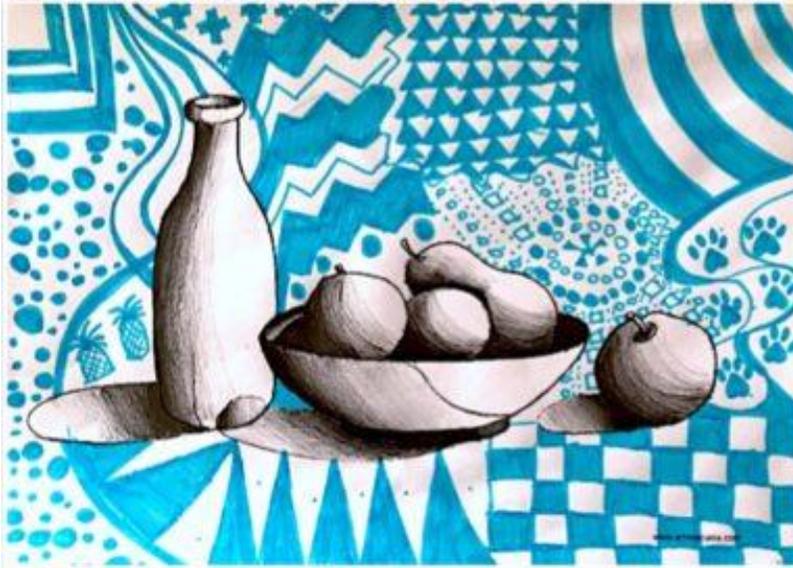

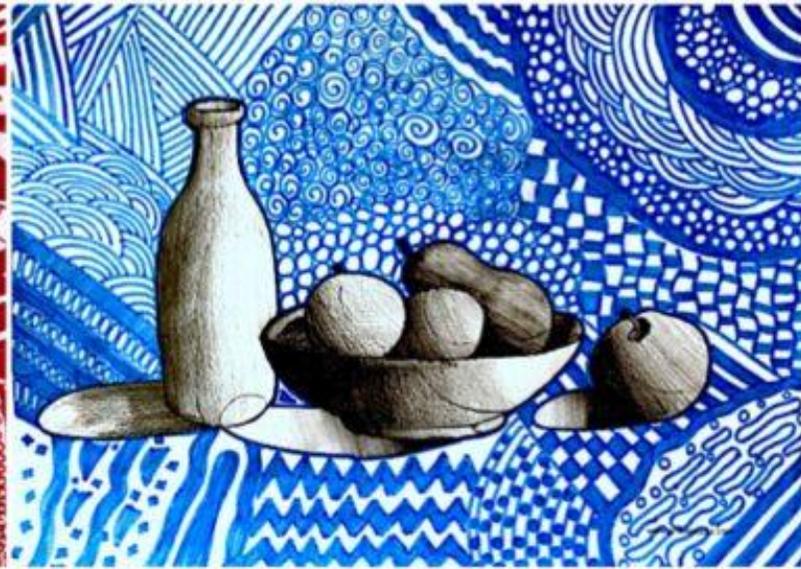

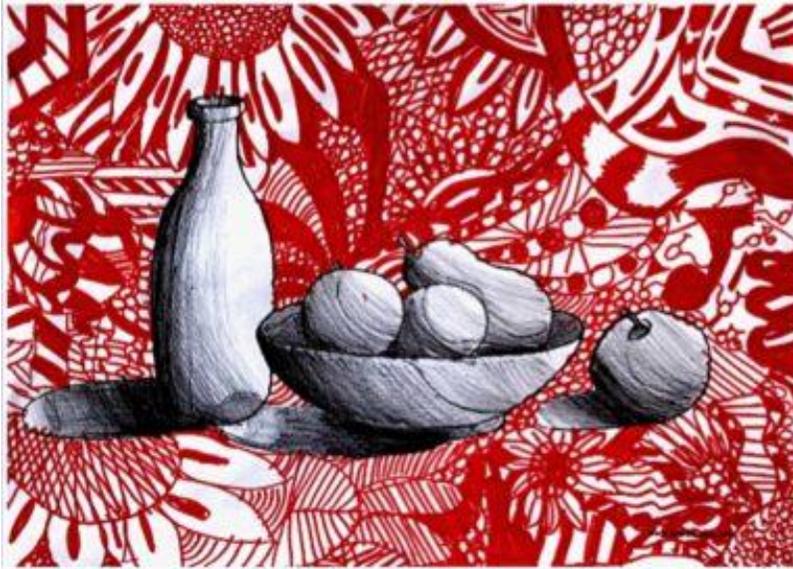

1. Ombreggia con tratti diversi e sfuma, se vuoi, utilizzando un fazzoletto di carta, la natura morta. Questo è un esempio di immagine correttamente ombreggiata.

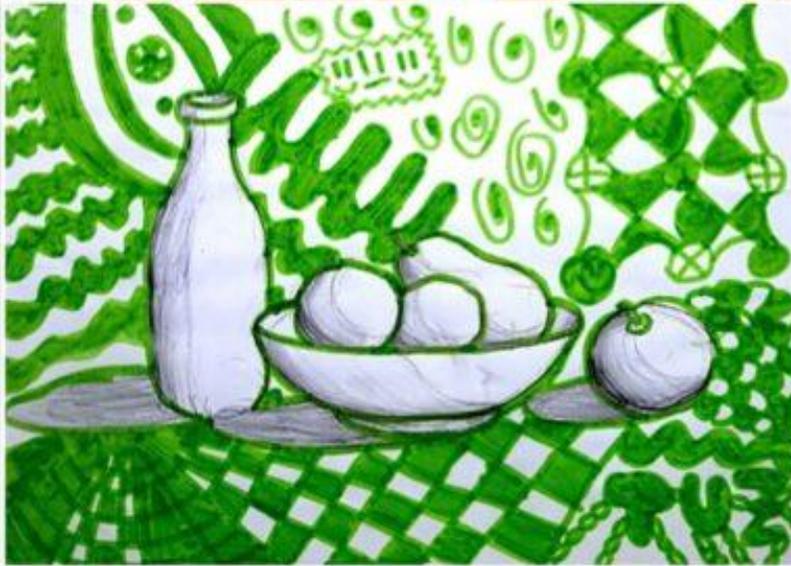

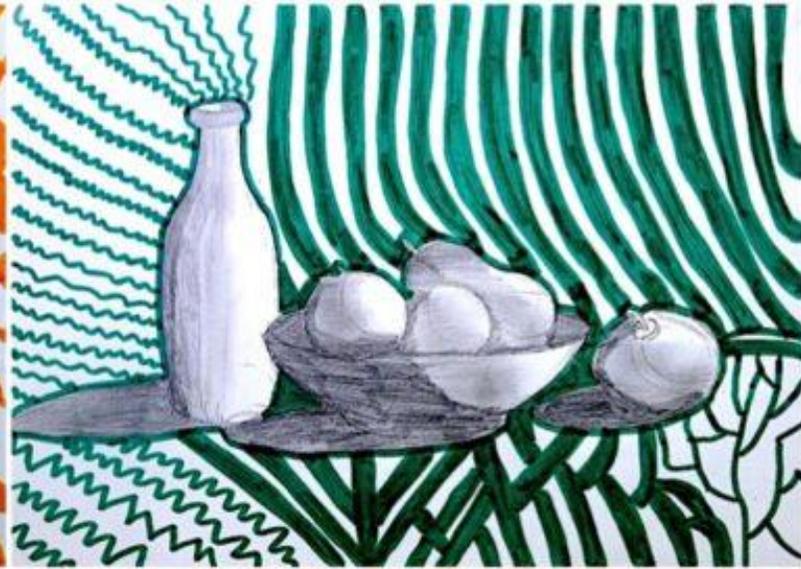

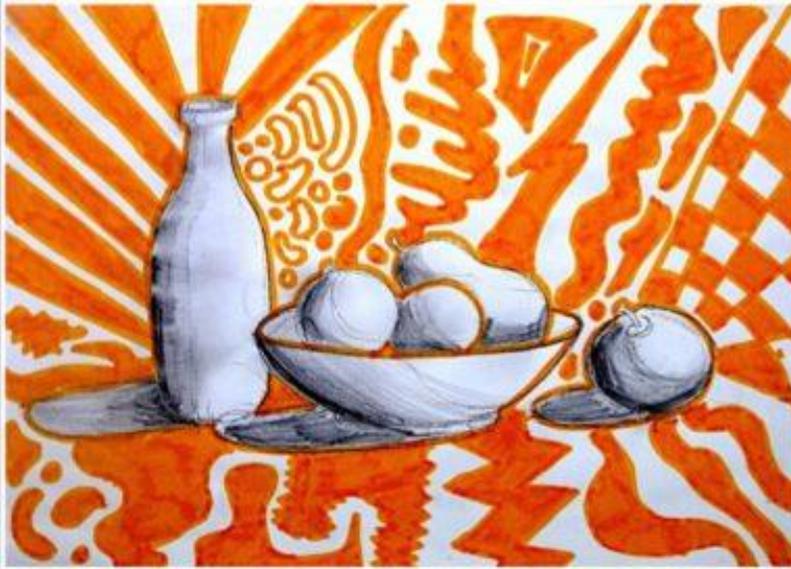

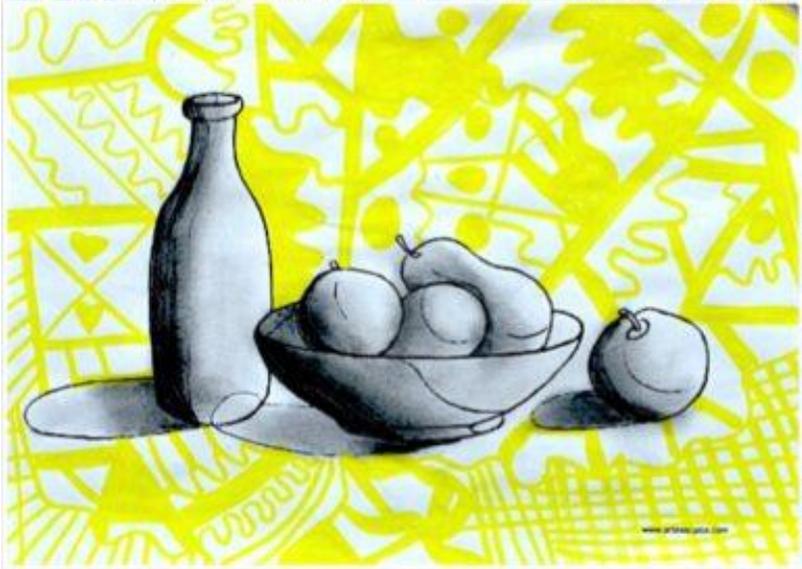

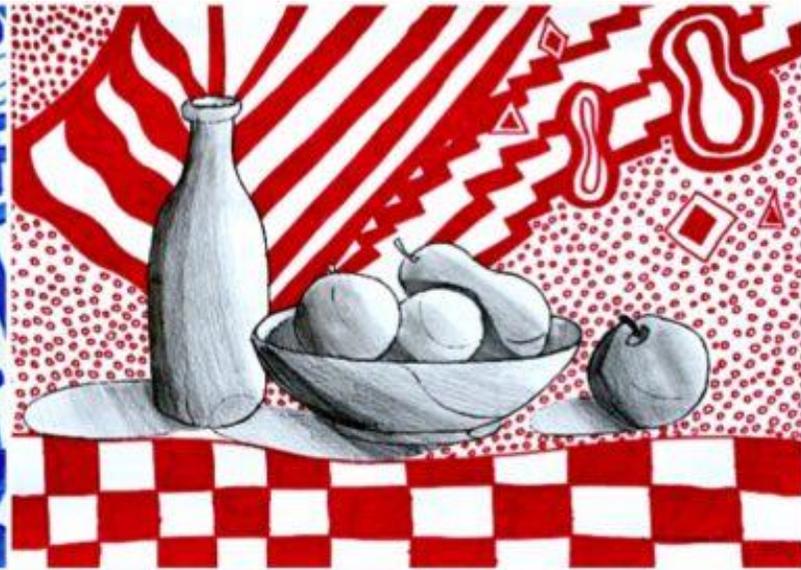

2. Prendi un foglio F4 e utilizza un pennarello per creare uno sfondo astratto monocromatico.
3. Ritaglia con estrema cura la natura morta e incollala sullo sfondo astratto.

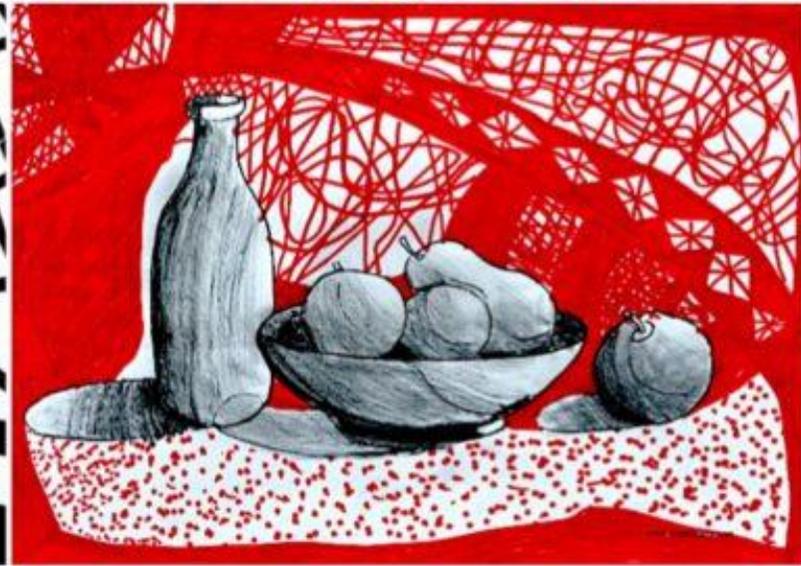

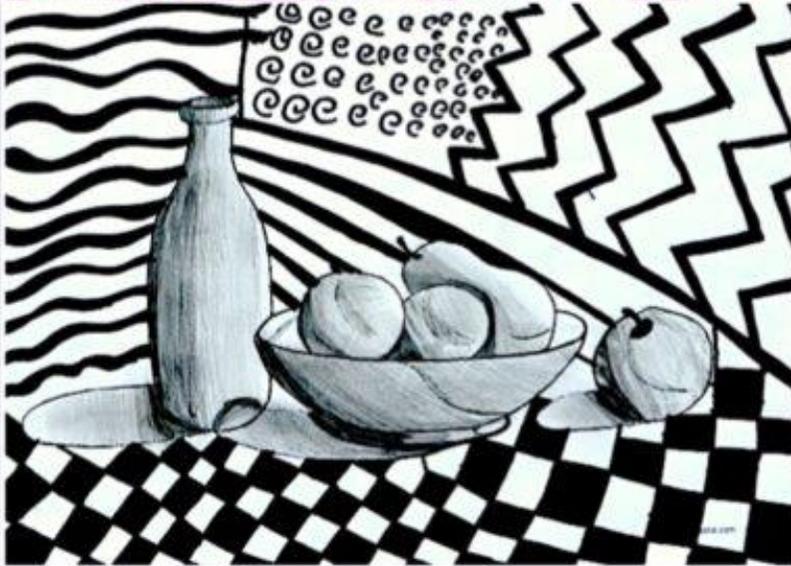

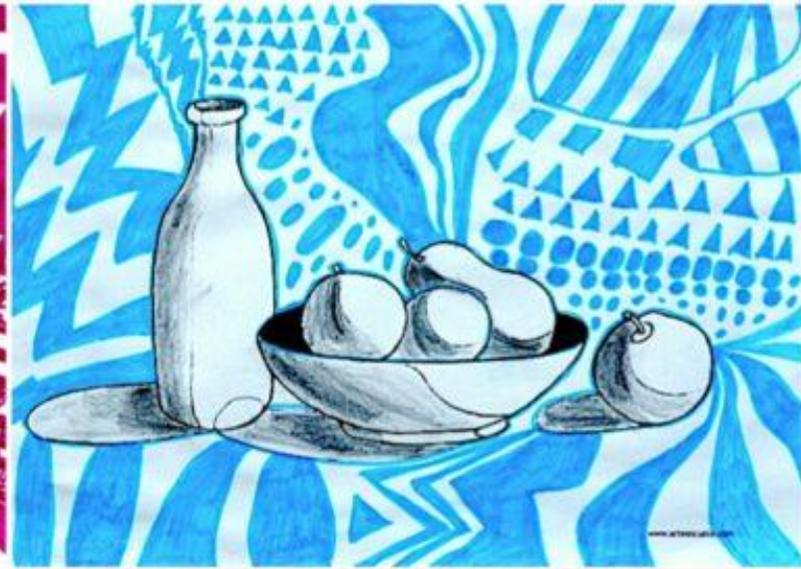

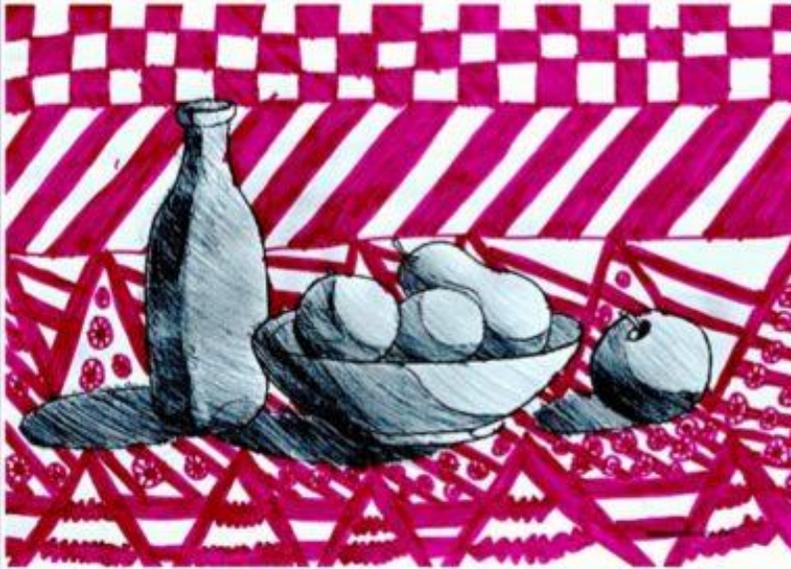

Esempi:

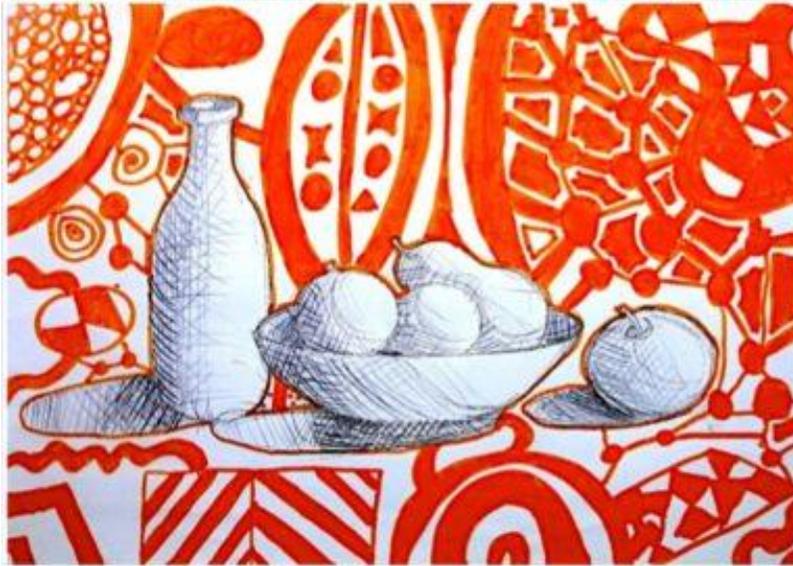

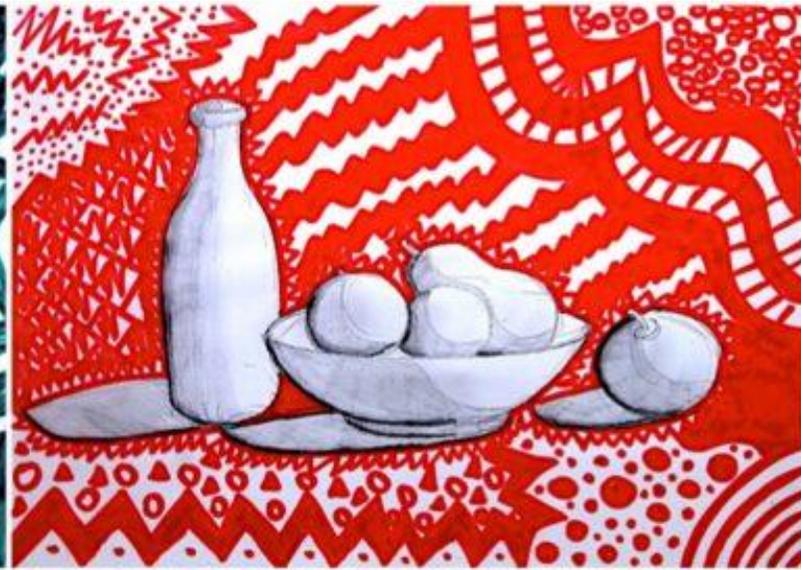

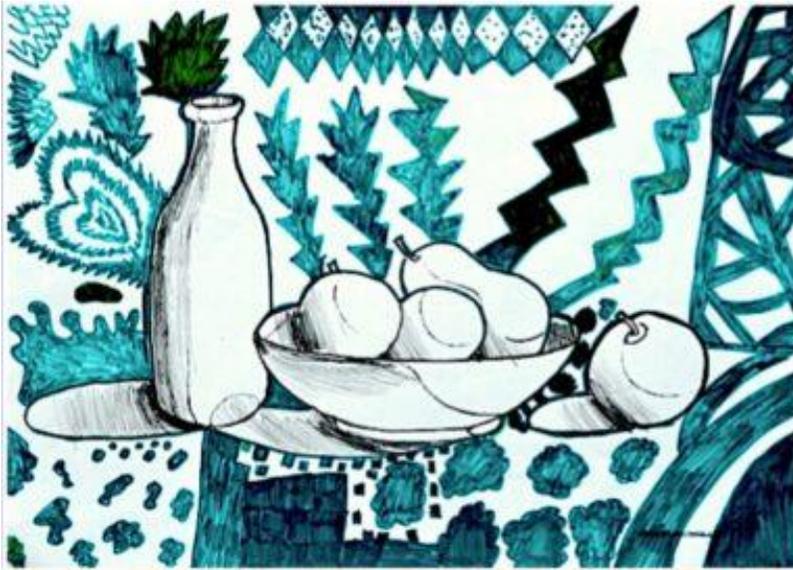

Una realizzazione alternativa potrebbe essere colorare lo sfondo direttamente sul foglio A4 contenente la stampa della natura morta; ti ricordo, però, che il pennarello è molto liquido e potrebbe rovinare il foglio.
