

Allenamento matematico di primavera

A. Calcola in riga.

$0,87 \times 10 = \underline{\hspace{2cm}}$

$261,42 \times 10 = \underline{\hspace{2cm}}$

$32,1 \times 100 = \underline{\hspace{2cm}}$

$0,83 \times 100 = \underline{\hspace{2cm}}$

$2,89 \times 1.000 = \underline{\hspace{2cm}}$

$13,2 \times 1.000 = \underline{\hspace{2cm}}$

$328,4 : 10 = \underline{\hspace{2cm}}$

$231 : 10 = \underline{\hspace{2cm}}$

$36 : 100 = \underline{\hspace{2cm}}$

$14,8 : 100 = \underline{\hspace{2cm}}$

$1300 : 1.000 = \underline{\hspace{2cm}}$

$3 : 1.000 = \underline{\hspace{2cm}}$

B. Calcola incolonnando in tabella.

$2.034 + 627,36 + 41,309 = \underline{\hspace{2cm}}$

$12,781 + 16.835 + 124,7 = \underline{\hspace{2cm}}$

$103,6 + 2.594 + 821,209 = \underline{\hspace{2cm}}$

$61.302 - 398,45 = \underline{\hspace{2cm}}$

$2.307,12 - 924,383 = \underline{\hspace{2cm}}$

$16.014,1 - 235,386 = \underline{\hspace{2cm}}$

$30.382 - 674,609 = \underline{\hspace{2cm}}$

$26.201,12 - 3.089 = \underline{\hspace{2cm}}$

$66.034,087 - 256,15 = \underline{\hspace{2cm}}$

$18.203,2 - 15.813,36 = \underline{\hspace{2cm}}$

esempio

hk	dak	uk	h	da	u	d	c	m	
		2	0	3	4	0	0	0	+
			6	2	7	3	6		+
				4	1	3	0	9	=

C. Calcola in colonna con la prova accanto.

$36,47 : 6 = \underline{\hspace{2cm}}$

$\text{prova } \underline{\hspace{2cm}} \times \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 36,47$

$29,64 : 0,8 = \underline{\hspace{2cm}}$

$\text{prova } \underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = 296,4$

$8.652 : 43 = \underline{\hspace{2cm}}$

$\text{prova } \underline{\hspace{2cm}} \times \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 8.652$

$7.243 : 65 = \underline{\hspace{2cm}}$

$\text{prova } \underline{\hspace{2cm}} \times \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 7.243$

$8.647 : 43 = \underline{\hspace{2cm}}$

$\text{prova } \underline{\hspace{2cm}} \times \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 8.647$

$8.010 : 72 = \underline{\hspace{2cm}}$

$\text{prova } \underline{\hspace{2cm}} \times \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 8.010$

$75.645 : 36 = \underline{\hspace{2cm}}$

$\text{prova } \underline{\hspace{2cm}} \times \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 75.645$

D. Calcola in colonna.

$328,2 \times 6,7 = \underline{\hspace{2cm}}$

$581,49 \times 0,8 = \underline{\hspace{2cm}}$

$13,251 \times 49 = \underline{\hspace{2cm}}$

E. Scomponi sul quaderno i risultati dell'esercizio A.
