

LA DIVISIONE IN COLONNA... con i raggruppamenti

☺Ricorda: dividere significa fare parti uguali, raggruppare in parti uguali, contare i gruppi composti dallo stesso numero di elementi. Osserva.

$12 : 3 = \underline{\quad}$

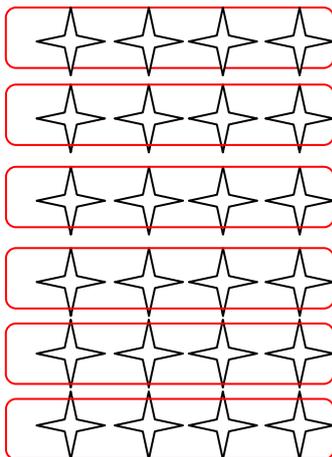

12 cuori | faccio gruppi da 3

4 gruppi

$24 : 4 = \underline{\quad}$

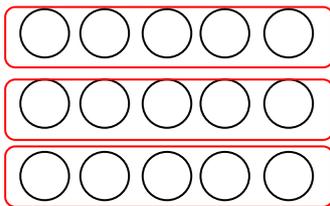

24 stelle | faccio gruppi da 4

6 gruppi

$15 : 5 = \underline{\quad}$

15 palline | faccio gruppi da 5

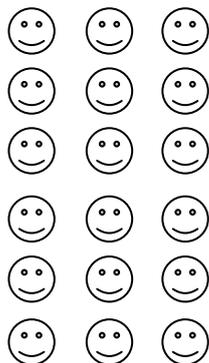

3 gruppi

✍ Ora esegui le divisioni come hai visto negli esempi.

$18 : 3 = \underline{\quad}$

18 faccine

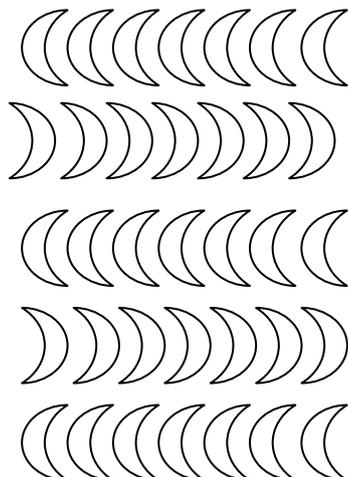

faccio gruppi da 3

         gruppi

$35 : 7 = \underline{\quad}$

35 lune

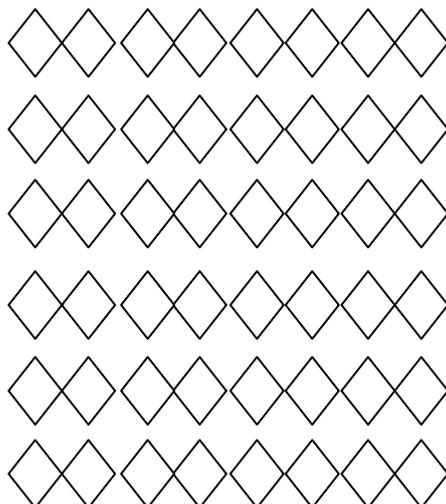

faccio gruppi da 7

         gruppi

$48 : 8 = \underline{\quad}$

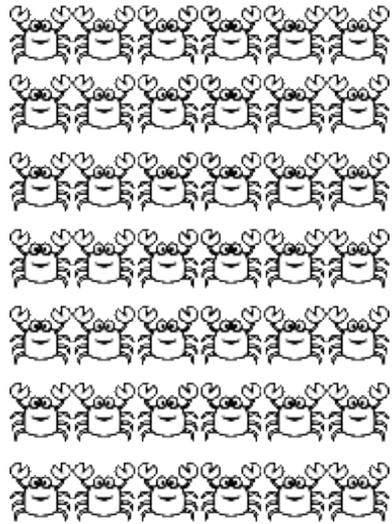

48 rombi

faccio gruppi da 8

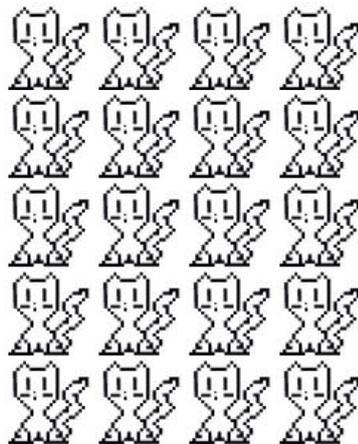

         gruppi

42 : 6 = \_\_\_\_\_ 42 granchi | faccio gruppi da 6

\_\_\_\_\_ gruppi

20 : 4 = \_\_\_\_\_ 20 gattini | faccio gruppi da 4

\_\_\_\_\_ gruppi

27 : 9 = \_\_\_\_\_ 27 secchielli | faccio gruppi da 9

\_\_\_\_\_ gruppi
